

Planning Sites

A Planning Site is a school site that is planning to offer AVID in one or more sites in future school years but is not an AVID Member Site during the Term.

- a. **Restrictions:** A Planning Site has very limited and discretionary access to benefits of membership, mostly in the area of support by AVID staff to partner with Planning Site stakeholders to set up launch of full AVID implementation in Planning Site(s). All staff from Planning Sites are restricted from attending any of the implementation-level Communities of Practice offered at AVID professional learning events, but may attend other Communities of Practice offered for their program level.
- b. **Planning Sites:** The school sites that have planning ordered on the Quote/Order or Subsequent Quote/Order will plan during the Term to implement the particular program listed in the following school year.
