Building Sustainable Computer Science Classrooms *Together*

With funding in part from the Microsoft Technology Education and Learning Support (TEALS) Program, we are thrilled to offer a **scholarship opportunity** for AVID schools in *select cities and regions* seeking to grow their computer science (CS) programs. This scholarship will support the development of teachers seeking to grow as CS practitioners.

This scholarship **fully covers** registration for up to four educators (per district) to attend a new AVID ElevateXP™ training, *Building Sustainable Computer Science Classrooms*, developed to support teachers implementing TEALS. **The TEALS Program is FREE and *no cost* to the district.**
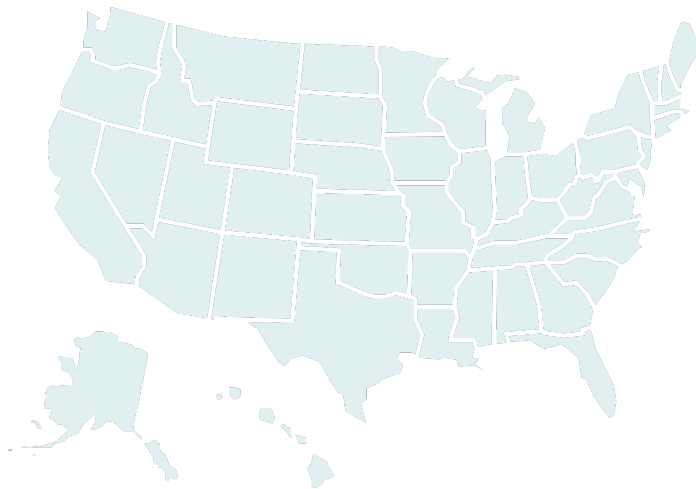

This scholarship for training is a $2,320 value. The application priority deadline is **Friday, March 15, 2024**. Space is limited—don't wait to apply!

Participating educators will also receive a free membership to Computer Science Teachers Association (CSTA) and certification as a Microsoft Certified Educator.

Follow these two simple steps to apply:

1 Complete the Microsoft TEALS Program application.

2 Email your application submission confirmation to TEALS@AVID.org to receive next steps to register for the training.

*Atlanta, GA
*Baltimore, MD
*Birmingham, AL
*Selma, AL
*Montgomery, AL
*Charleston, SC
