

AVID Elementary Membership

AVID Elementary: AVID Elementary is for grades PreK–6. By teaching and reinforcing academic behaviors and higher-level thinking at a young age, AVID Elementary teachers create a ripple effect in later grades and help close opportunity gaps before they begin. Elementary students develop the academic habits they will need to be successful in middle school, high school, and college, in an age-appropriate and challenging way. Students learn about organization, study skills, communication, and self-advocacy. AVID Elementary students take focused notes and answer and ask high-level questions that go beyond routine answers. The strong college and career readiness culture on an AVID Elementary campus encourages students to think about their college and career plans. Schools intentionally display college memorabilia, and teachers discuss how college is different than the K–12 educational experience. College and careers are no longer foreign concepts to students, and teachers provide the academic foundation students need in order to be on a path toward college and career success. Schools begin AVID Elementary by training teachers in the initial implementation grade level(s).
